

NICK MORRIS

(469) 910-7643

nick88morris22@gmail.com

4556 Daffodil Trail

Plano, Texas

75093

PROFILE

Proficient in various languages, including Python, Java, Swift, HTML, and CSS. But he's also got a firm grasp on other frameworks like Django and Manim. Has been hired to build iOS Apps for private businesses and build a custom website for a multitude of companies.

EXPERIENCE

Intern / Developer, — 2020-present

Worked at StoneEagle F&I over the summer of 2022 and learned C#, Javascript, and React. Worked with senior developers to help optimize the business and software.

Host / Food Runner / Exopodite / Kenny's Burger Joint — 2020-2022

Initially started at a host, but managers quickly realized his diverse skillset and allowed him to expand to more roles. He later developed an iOS App for the restaurant which he pitched and sold to the CEO. He later built a schedule managing software for the managers that automated schedule creation.

EDUCATION

Jesuit College Preparatory School of Dallas - 2023

SKILLS

While skilled in programming and problem solving, also great at communicating and making people laugh.

PROJECTS

Kenny's Burger Joint iOS App

Commissioned by the restaurant, built a fully functional iOS app complete with features like mobile ordering and employee training.

QuickShift

Built a website (quick-shift.us) that could automatically generate and distribute a schedule based off of everybody's availability and could receive and manage requests off.

Dryden Tutoring

Commissioned by a tutor to build a website (drydentutoring.com) for their tutoring company.
